

Detachable ball
You must seek guidance on how to proceed from the towbar manufacturer or supplier.

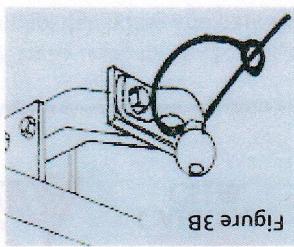

Figure 3B

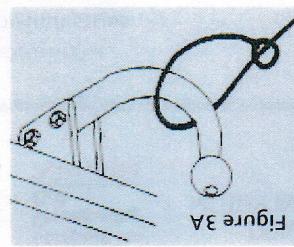

Figure 3A

See Figs. 3A and 3B.
only.

If you fit the cable like this, use a single loop the neck of the towball. Loop the cable around the towball.

Fixed ball

Where **NO** designated attachment point is provided on the towbar:

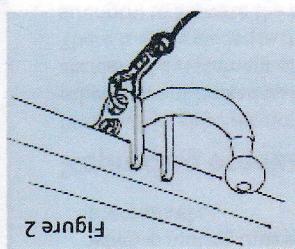

Figure 2

b) Attach the clip directly to the designated point (Fig. 2).
This alternative must be specifically permitted by the trailer manufacturer since the clip may not be sufficiently strong for use in this way.

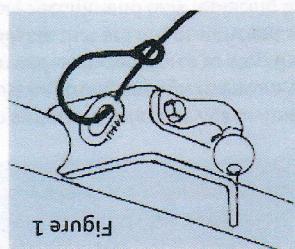

Figure 1

a) Pass the cable through the attachment point and clip it back on itself (Fig. 1).

Where a designated attachment point is provided on the towbar:
